

SAI TEJA AREPALLI

Hyderabad | tejaarepalli6@gmail.com | 7396421396 | | linkedin.com/in/teja-arepalli | github.com/TejaArepalli

Profile Summary

- Passionate full-stack developer with hands-on experience in React.js, Node.js, and REST API development, specializing in building user-friendly web interfaces and scalable backend services. Skilled in leveraging Generative AI tools to accelerate development, enhance code quality, and optimize workflows. Highly enthusiastic about learning new technologies and contributing to impactful, real-world applications within a collaborative team environment.

Skills

- **Programming Languages:** JavaScript, HTML, CSS, Python, SQL
- **Frameworks and Libraries:** React Js, BootStrap, Node Js, Express Js, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Technical Skills:** RESTful APIs, JSON, Git Version Control, Generative AI, AI Tools

Education

NxtWave Intensive	Jul 2024 - Jul 2025
Full-stack developement	CGPA: 8.5/10
Sri Vagdevi Degree College, Nizamabad	Jun 2021 – Oct 2024
Bachelor of Science	CGPA: 8.2/10
Kashritya Junior College, Armoor	Jun 2019 – May 2021
Intermediate	Percentage: 80.8%
Krishnaveni High School	Jun 2018 – May 2019
10th	GPA: 10

Projects

- Car Garage - Car Service Management System** | React.js, JavaScript, HTML, CSS, JWT Authentication, Routing, REST APIs, Node.js, Express.js
- Developed a secure admin-controlled car service management system using React.js with JWT-based authentication, enabling garage owners to create job cards, manage vehicle service and repair details, track service status, and generate bills.
 - Built and integrated RESTful APIs using Node.js and Express.js, and implemented React Router for smooth dashboard navigation and efficient workflow management.
- Dubai Tourism** | React.js, JavaScript, HTML, CSS, REST API Integration, Responsive Design, Client-Side Routing
- Developed a responsive Dubai tourism booking website using React.js, enabling users to explore tourist destinations, view trip packages, and confirm tour bookings through interactive forms and reusable React components.
 - Implemented client-side routing using React Router for seamless navigation across pages, integrated REST API calls to fetch trip and package data dynamically, and used local storage to persist user selections and booking details.

Certifications

- Certified Full Stack Developer by NxtWave**
- Completed an intensive training program focusing on the MERN stack, including MongoDB, Express.js, React.js, and Node.js.
 - Gained hands-on experience in developing full-stack web applications, emphasizing responsive design and user-centered development.
 - Certified in Generative AI with practical exposure to AI-assisted development tools.

Achievements

- Earned 5-star proficiency badges in Python, SQL on HackerRank, showcasing advanced technical expertise competitive programming environments.
- Certified in Microsoft Springboard for Effective Email Communication and Documentation, refining professional communication techniques and technical documentation skills to enhance workplace productivity.
